LETTER OF SUPPORT

In reference to your proposed project titled *Wetlands Tourism and Environmental Management (WATERMAN)* for the call: Specific objective 3.1 *"To enhance the development of a sustainable and responsible coastal and maritime tourism in the MED area"* from Priority Axis 3 *"ENVIRONMENT: Protecting and promoting Mediterranean natural and cultural resources"*.

Herewith I would like to confirm that we are willing to support your application for the WATERMAN proposal.

As the tourism and culture agency of the municipality of San Pedro del Pinatar, that has the competence to manage tourism activities in the surroundings of the Mar Menor lagoon, and more specifically in the RAMSAR Wetland of International Importance and Regional Park of Sandbanks and Saltworks of San Pedro, we see this as a wholly beneficial project to link to our interests in the development of capacities to enhance sustainable tourism activities and to promote this area in the international level. The proposed approach with cooperation and sharing of knowledge and technologies with other Mediterranean countries and Ramsar site managers is a relevant strategy to improve the sustainability of tourism activities.

Therefore, we confirm our involvement as a final beneficiary, active stakeholder and a potential end-user of project results. We welcome the opportunity to participate in stakeholder meetings, or training activities, being able to interchange our management experiences and test and evaluate some of the final project tools, guidelines and methodologies.

Yours sincerely,

FIRMA Y SELLO
