LETTER OF SUPPORT

We have learned that you will be involved in a research project regarding the identification and tracking of foreign objects in the Northern and Central Section of the Atlantic Ocean.

This is to advise you that we have been participating in several occasions with PLOCAN Plataforma Oceánica de Canarias, in operations designed for the same or very similar purpose. Our experience in all the cases is that this cooperation brings a very high level of success. The Technicians, Engineers and Managers working in PLOCAN have a high level of experience and capacity permitting them to control projects involving high level of expertise.

We are sure that if you arrange with PLOCAN a cooperation program, the result will be of high benefit for all the organizations involved.

We hope that these comments are of interest to you.

Susana Mier
Vice-Presidente
GRAFINTA S.A.
